***Story* (*The story is limited by the number of pre-orders of the game.)**

A knight just arrived at Castledown that was once guarded by a powerful orc... PARADISE SUMMER WORLD

Welcome to Paradise. A kingdom in the south lies in a vast paradise, with resplendent landscapes and abundant fruit that always yields a high yield.

The Kingdom of Paradise is filled with variety: a broad range of natural conditions from lush forests to snowy mountaintops and the rich plains of the land.

Besides being full of rich bounty, the Paradise Kingdom serves as a holy land shared by human beings and the gods. Faith in the legends of its past and the promise of its future brings hope to those who live here.

But the Paradise Kingdom has a murderous yet strange darkness that could be said to hold a demonic nature. On the night of the full moon, monsters resembling humans rise to wreak havoc and terrorize the people. The government tries to close down the Paradise Kingdom's portals to other dimensions, and declare these monsters to be outside the law. However, the monsters' power and influence spreads across a vast area, and they are developing an arsenal of formidable weapons. And despite the evil beings' deep hatred of humankind, a vicious power struggle has developed between the monsters and mankind.

Can the Kingdom of Paradise survive? *Characters*

The Kingdom of Paradise is a beautiful pristine kingdom, with regions from lush forests to snowy mountaintops and the rich plains of the land. It is a nation independent of humans. Since the Kingdom was formed with its own specific laws, it is filled with compassion and trust.

However, despite its protection of humans by law, things are not what they seem within the borders of the Kingdom. Not only is it filled with danger and mystery, it's also plagued by

grave misfortune, especially at night when a menacing presence appears.

It's a once-in-a-lifetime opportunity to show your great contribution as a Warrior of the Kingdom to clear up the darkness within the Paradise Kingdom.

A: If I understand correctly, the collection is in memory and is being populated into the gridview based on database query? If that is the case, you could do something like this: Public Sub Filter(ByVal entity As System.Web.Mvc.SelectListItem) 'Entity represents a gridview Item 'collection is an observable collection of entity type If (entity.Selected) Then Using db As New Context() Dim collection As From n In db.YourCollection _ Select n collection = collection.Where(Function(n) n.Name = entity.Value).ToList() If collection.Count > 0 Then GridView
