Authentication Model: Authorization Model (AMA). Status: Improved AMI Model (registration number: 5277 dated 01/24/2012) ----- AWP serial number: 427365 dated 12/27/2009 ----- At the beginning of 2012, CJSC AMIKO introduced a new generation of trade automation systems based on OLE to the Russian market. The OLE LabelExpert system, consisting of two modules: the Oracle BI module - OLE DB (OLE Database) and the OLE Data Expert module - OLEDB (OLE Data Browser). OLL is a module for working with commercial equipment. It allows you to manage the operation of retail equipment without programming, install and remove it, interact with retailers, maintain an archive, etc. OLE BI (Ole Business Intelligence) module for business analysis and information retrieval. Unlike Oracle DB, it is not loaded by the operator from a PC, but is an OLEX server, displaying all the necessary information in the form of spreadsheet and text documents. OLE ScrumBase (Office of Scrum) is a group process management module for working with all types of data as CI components. The project management system PMBOK-5 supports the maintenance of workflows in a tabular or text-graphic form. OLYMP (Open Source Alloy POS - Open-source Alloy) is an integrated environment for automating a trade enterprise. It is a software that contains all the necessary tools and components for creating effective automation systems: a data exchange module (CRM), a replenishment module, a synchronization module, an accounting and telemetry server (OPD). Library of vending machines and retail vending machines (vending machines with drinks and selling tobacco products) Software module for managing vending machines (selling goods through vending machines, including with customer cards). The standard delivery includes a Russian-language text module describing the machine
