Firmware AutoCAD is part of the AutoCAD 2010 and 2013 product lines. There are also updates to existing AutoCAD objects, feature enhancements, and the new AutoCAD LT product line, which is for users on the lower end of the market. AutoCAD LT is supported for PCs running Windows 7, 8, 10 and Linux, and Mac. AutoCAD LT software is based on AutoCAD Architecture for Windows software which is a fork of AutoCAD Architecture for Windows 7. AutoCAD LT Architecture for Windows (2010 and 2013) was the replacement for AutoCAD Architecture V7.0 for Windows. AutoCAD Architecture 4 is based on the 2003 version of AutoCAD Architecture and, when Autodesk stopped developing AutoCAD Architecture on the Windows platform, this fork became the standard software. A software version is delivered with a license for running on a single Windows-based computer. In 2008, AutoCAD Architecture for Linux was developed, and continues to be updated to deliver a stable Linux platform version. It is available as a free download from the Autodesk Exchange Apps section. Mac users can either use an earlier version of AutoCAD Architecture, or the full AutoCAD LT package, which includes AutoCAD Architecture for Macintosh. Point-of-Care Ultrasound at the Bedside in Clinical Practice: The Critical Role of the Alarm-and-Point-of-Care Ultrasound Interventions. Point-of-care ultrasound (POCUS) can play a critical role in clinical practice by aiding the diagnosis of pathologic conditions in a safe, rapid, and inexpensive fashion. This article discusses the critical role of POCUS in clinical practice by describing the technical features of POCUS, along with POCUS-guided life-saving interventions and common points-of-care ultrasound interventions. A multicentre, randomized, controlled clinical trial to assess the effect of single-dose intracameral cefuroxime in patients undergoing cataract surgery under topical anesthesia. To compare the efficacy and safety of intracameral cefuroxime 0.5% and 0.3% with a placebo in the prevention of ocular infection after uneventful cataract surgery with topical anesthesia. After the approval of the institutional review board, a multicentre, randomized, controlled clinical trial was conducted. A total of 307 patients were randomized to receive intracameral cefuroxime 0.5%, 0.3%, or a placebo before surgery. Incidence
